5 Ways to Eliminate the Hassles of an IT Audit with IsUtility®

IsUtility® simplifies the task of dealing with an IT audit. By assuming full responsibility for the entire audit process, we enable your organization to mitigate the time and resources required to survive an IT audit. Here's how:

Xvand Technology Corporation

"With a limited budget to spend on IT, we didn't want to invest excess capital or allocate the man hours to upkeep our information systems. With IsUtility®, we went from '0 to 60' a lot more quickly."

- Steve Gardner, Director of Finance, NGP Capital

1 TRANSFER THE RESPONSIBILITY TO ISUTILITY®

IsUtility® assumes the responsibility of the entire IT lifecycle by supplying businesses with the necessary support, equipment and applications. And because we assume the full responsibility, we routinely meet the standards of third-party auditors such as PricewaterhouseCoopers™, Security and Exchange Commission, and the Federal Trade Commission.

2 GIVE YOUR AUDITORS OUR NUMBER

IsUtility® clients never worry about the arduous process of an IT audit. Simply redirect your auditors to our security experts, and we'll take care of the rest. We enable your organization to mitigate the time and resources required to survive an IT audit.

3 COMPLETE AN AUDIT IN HOURS – NOT WEEKS

While most IT audits can take weeks – depending on the size of the organization – IsUtility®'s comprehensive reporting and documentation procedures enable us to complete an IT audit within a few hours

4 GAIN AN EXPERIENCED AUDIT TEAM

Our security team is experienced in facilitating and expediting the security audits of many security-sensitive institutions and publicly-traded organizations. Our clients have the peace of mind knowing that they are working with an experienced audit staff.

5 BECOME INSTANTLY COMPLIANT

Why risk the security of your data to chance? We expend the necessary resources to make sure your data and emails are never lost, which is why IsUtility® is the solution of choice for many security-sensitive and publicly-traded organizations. To stay up-to-date with the latest legislative standards, we comply with the following: SAS-70, S-OX, HIPPA, and Gramm-Leach-Bliley.

If you have any questions or would like more information, please contact IsUtility® for assistance.
